Dear Ms. Calvo,

This letter is in response to your email dated February 6, 2014. The reason why Thetford Corporation reported production in an establishment (EPA Est. No. 26601-MI-001) not registered with EPA is that Thetford believed the establishment was properly registered. Thetford has filed annual production reports with the EPA using the same establishment registration number for years but until your email Thetford was unaware that the registration was not valid.

Thetford has been producing Fresh Water Tank Sanitizer (EPA Registration No. 1839-86-26601) at the Jackson Road establishment since 2005.

Thank you for bringing this to our attention. Thetford will promptly apply to the EPA to register its Jackson Road establishment.

Sincerely,

A handwritten signature in black ink, appearing to read "Wayne Lorek", is written over a faint, larger version of the same signature.
